**Summary of reasons for decision:**

The computer image file printout is deemed objectionable because it promotes and supports the exploitation of children or young persons for sexual purposes.

The image on the printout shows a girl who appears to be an older child or young teenager. She is in a sexualised pose that shows her flexibility. The intent of the image is to capture her genital area which is not wholly covered by the garment she is wearing. The purpose of the image is to sexually titillate or arouse people with a sexual interest in children or young people. The computer file encourages this sexual interest.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention and is a reasonable limitation on the freedom of expression. The classification reflects the concern of a free and democratic society to protect its young and vulnerable members from sexual exploitation.
